

Why be silent?

#VoteOrVoteNone
Vote or VoteNone.org.uk

In the last general election **over a third** of registered voters did not vote at all.

Back in 2005 it was nearly as many as voted Labour and Conservative combined!!

Non-voters are silent and invisible:

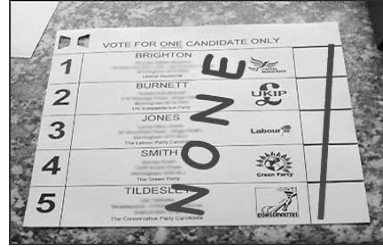

They are not shown in the results.
Not voting is explained away as apathy.

Think...

If just some of the 'Unheard Third' vote this time, they can change the results!

And if some vote NONE, they will deliver the biggest protest in UK history.

So if you are fed up with current UK politics, **this election is the time to be heard.**

To Vote None:

Write **NONE** across the ballot paper.
Put a **single line** across the boxes.

Don't put a **X** anywhere !!

Don't write anything more.

Let's use our votes to improve UK politics

Either

Vote for a candidate

who you trust to work hard
for the things you believe in.

Any result is possible if we vote.

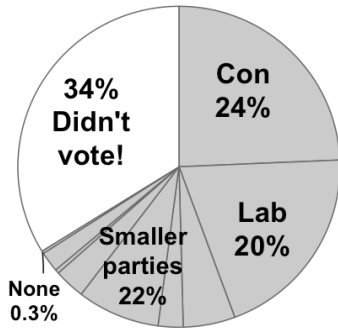

Or

Vote None in protest

Voting NONE says

*"I believe in democracy,
I care about this country, and
I want better candidates."*

The results we never see: UK 2015 General election

This chart shows **all** registered voters in the 2015 General election.

If one party wins a majority in this election, it is likely to be with the support of less than a quarter of the electorate. (In 2005 it was 22%.) So do something!

or ring your local council offices.

This was printed by a volunteer. If you don't want it, **please** pass it to someone who is fed up with UK politics! Thank you.

There's no reason to be silent...

Vote

for a candidate or party
who you trust to work hard
for things you believe in...

Or if you don't want to support any of the candidates

Vote NONE

in protest, to say:
"I believe in democracy,
care about this country.
& want better politics."

#VoteOrVoteNone

Just write **NONE** across your ballot paper.
